

IN THE SPECIFICATION:

Please amend paragraph 0089 as follows:

[0089] Furthermore, as shown in FIG. 6, the diameter of the bottom wall 14c and the upper wall 16c may be set slightly smaller than the inner diameter of the side wall 12a, while constituting the bottom wall 14c and the upper wall 16c [~~14e~~] with a quartz glass having a relatively high degree of heat emission and employing a quartz glass having a relatively low degree of heat emission for the side wall 12a. As a quartz glass having a relatively high degree of heat emission, there can be mentioned a transparent quartz glass, and, as a quartz glass having a relatively low degree of heat emission, there can be mentioned an opaque quartz glass.
